

3 2v solar battery

What type of battery is a 3V battery?

3V batteries are primary lithium-thionyl chloride high energy D-size bobbin cells with a low magnetic signature. These coin type lithium batteries are high energy, high reliability batteries for a variety of applications. They provide full 3 volts, which is about twice that of conventional dry batteries.

How many batteries are in a Hampton Bay Solar rechargeable battery?

The Hampton Bay Lithium Phosphate Solar Rechargeable battery comes in a package of two. These 14430, 3.2-Volt batteries are designed for solar landscape lighting and are charged by the light's solar panel with no other equipment necessary. These batteries are intended for use only with solar landscape lighting products.

Can you use batteries in a solar light?

If using the batteries in a solar light, only solar rechargeable batteries should be used. Using standard batteries may damage the light. I bought a solar light from Home Depot and it had a 18500 600 mah 3.2 volt solar battery in it. I am guessing you do not sell them because I am unable to find them on your site ... Thank you for your question.
