

5w solar car battery charger with controller

What is the best solar battery charger?

Use the most powerful energy source in the solar system to charge and maintain car, boat, motorcycle, and power sports batteries. Schumacher's SA1589 5W 12V Solar Battery Charger and Maintainer is portable and compact, allowing you to charge your vehicle's battery off-grid and far from civilization.

What is Schumacher's 5W 12V solar battery charger and maintainer?

Schumacher's SA1589 5W 12V Solar Battery Charger and Maintainer is portable and compact, allowing you to charge your vehicle's battery off-grid and far from civilization. The SA1589 features three built-in monocrystalline solar panels that convert the sun's energy into up to 5W of power to trickle charge and maintain 12V batteries.

How to use a solar car battery charger?

A solar car battery charger needs the sun to work, so you need to expose the panel to the sun. To do this, position your trickle charger on your dashboard with its panel facing the sun. With it in this position, plug it into your vehicle's 12V cigarette lighter. But there is something to keep in mind.
