

Age discrimination in the energy storage industry

Are age-diverse organizations more prone to discrimination?

Conceptually, in-and-out-group processes between different age groups, along with resulting discriminatory behaviors, are more likely in age-diverse organizations, contributing to collective perceptions of age bias.

What is age discrimination?

The concept of age discrimination stems from the broader notion of ageism that Butler defined as "prejudice by one age group toward other age groups" . The European Commission also legally defines age discrimination as discriminatory treatment on the basis of age in employment and occupation .

Does age discrimination occur in the workplace?

As a result, most empirical research has studied perceived age discrimination. While age discrimination might happen against any age group in the workplace , most research has only considered discrimination against older employees.

What is perceived age discrimination?

Perceived age discrimination is thus a form of negative treatment or behavior against an age group based on age stereotypes that employees perceive. It can occur as an individual perception but also as a shared organizational perception among a group of employees (i.e., age discrimination climate), both of which are covered in this review.

Does the ADEA Act protect younger workers from ageism?

While the ADEA act doesn't protect workers under the age of 40, some states have their own laws that protect younger workers from ageism. Ageism is more prevalent in specific industries.

Does age discrimination affect a company's innovation potential?

Both studies by Kunze et al. [11,27] confirmed a strong negative relationship between an age-discrimination climate and a company's innovation potential. Similarly, De Meulenaere et al. found that high collective perceptions of age discrimination endanger a company's innovation potential.
