

Battery solar boise

Who is Boise solar?

After working with multiple Idaho solar companies, Paul realized that there was a huge need to offer not only excellent customer service, but also precision installations and high-quality components backed by stable, long-lasting warranties. With these three essential elements in mind, Boise Solar was born.

What is the cost of a solar system per watt in Boise?

After the 30% federal solar tax credit, the cost of a solar system in Boise is about \$1.76 per watt. A 6 kW solar system will cost about \$10,584 before incentives, which is about \$15,120 before incentives.

What companies do you recommend for solar in Boise?

For solar in Boise, we recommend the following top companies: Intermountain Wind and Solar (IWS) and Solar Reviews. IWS provides the power of bulk purchasing through the Intermountain Community Solar Initiative, allowing them to purchase solar components at discounted rates.

Who is Idaho Energy?

We are fully trained, licensed, and insured technicians with over 25 years of experience installing and servicing solar panels for homes in Boise and all of Idaho. At Idaho Energy we are experts in solar and electrical. Our company offers comprehensive work and repairs for all your general electric needs.

What is a fair price for solar in Boise?

The average price of solar is about \$2.02 to \$3.02 per watt in Boise, so anything in that range is a fair price. If your installer quotes you way below the average price in your area, proceed with caution.

Are solar incentives beneficial in Boise?

Solar incentives and rebates can cut the cost of installing solar in Boise by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
