

Battery tender solar maintainer

What is a solar battery tender?

Thankfully, there is a simple solution to your battery draining problems and that is a solar battery tender. A battery tender, or maintainer, is designed to maintain your vehicle's battery at the optimum charge so that your car is ready to go whenever you are.

What is a solar battery maintainer?

A solar battery maintainer is a device that derives its power from solar energy to create a slow-but-steady charge for different applications. It is used to maintain battery life for cars, boats, and outdoor equipment like ATVs or lawn tractors. Some models can even charge a cell phone.

Why should you choose a solar battery tender?

It also comes with multiple mounting options such as suction cups to attach to the inside of the windshield or on the dash. One of the biggest benefits of choosing a solar battery tender is portability. You can charge your vehicle's battery anywhere you want as long as there is sunlight.

How many batteries can a Battery Tender maintain?

Probably a dumb question, but most modern Battery Tenders can maintain multiple batteries. Some require certain configurations but will automatically maintain each one. Just 1 tender will maintain both.
