

# Best battery for geekvape aegis solo

What is an external battery for geekvape aegis solo III?

A5: An external battery refers to a battery that is not built into the device and can be replaced or removed, like the 18650 battery used in some Geekvape products. Q6: What is the recommended charging voltage for the geekvape aegis solo iii? I don't want to burn out the battery, but I wanted to know if it's able to use a 9v/2.5a charger.

What is the recommended charging voltage for the geekvape aegis solo 3?

A6: The recommended charging voltage for the Geekvape Aegis Solo III is 5V/2A. Using a 9V/2.5A charger is not recommended. Q7: Hey, which mode do you guys prefer on the Vape Aegis solo 3? A7: Aegis Solo 3 offers modes like SMART, POWER, BOOSTING, MEMORY, ECO, and TCR.

How many watts can a aegis legend vape?

Since the Aegis Legend is a dual battery mod, you get double the wattage over a single battery mod. So for example Sony VTC6 cells are rated as 15 amp batteries. Each one provides up to 45 watts, so using two gives you up to 90 watts. If you will vape more than 90 watts, choose higher amp batteries.

What wattage battery should I use in my aegis?

Hi Rammstein, if you look at Baditude's post above, showing the batteries and wattages, and you are vaping up to 75 watts using any of the following will work fine for you in your Aegis. They are all highly recommended batteries by Mooch, who is the battery expert, so they are all very good batteries.
