

Best octopus tariff for solar and battery

Which Octopus Energy tariff is best?

The best Octopus Energy tariff depends on your lifestyle and energy usage. For flexibility, the Flexible Octopus is a great starting point. If you want budget certainty, go with a Fixed tariff. For solar and battery homes, Octopus Flux or Intelligent Flux may offer the best returns. How does the Octopus Tracker tariff work?

Does octopus have a solar and battery storage tariff?

Octopus has a dedicated solar and battery storage tariff. Octopus Energy offers two tariffs exclusively to customers with both solar panels and battery storage. They are Octopus Flux and Octopus Intelligent Flux. The intelligent version was launched in July 2023 and takes into account the growing interest in battery storage.

Does Octopus Energy have battery storage?

Investing in battery storage can be beneficial, especially for tariffs like "Go Octopus." It allows you to store excess energy generated during sunny days and use it during periods of low sunlight or off-peak hours. How often does Octopus Energy update its tariffs?

What is a Go Octopus tariff?

The "Go Octopus" tariff is designed for electric vehicle owners and those with battery storage. It offers four hours of cheap electricity each night, allowing solar users to store excess energy during the day and use it during these off-peak hours. What is the "Outgoing Octopus" tariff?

Can octopus help you monetise solar panels?

Solar panels don't always have to come with a battery. So if you're exporting excess solar during the day, the Outgoing Octopus tariff can help you monetise it. Not every provider offers the same flexibility or rates. Some are slowly catching up, but Octopus tends to offer the widest range of solar-optimised tariffs.

Is Octopus Energy a good choice?

It's an excellent choice for solar users with high-capacity installations. Choosing the right tariff is just the beginning. To truly maximize the benefits of solar energy with Octopus Energy, consider the following tips:
Monitor Your Consumption: Regularly track your energy consumption patterns.
