

# Bissell crosswave 2 solid red battery lights

Why does my Bissell Crosswave cordless Max have 2 red lights?

If you have 2 red lights where the battery is on your Bissell CrossWave Cordless Max vacuum cleaner and it won't work or charge, please follow these steps to troubleshoot the issue: Ensure that the battery is properly inserted into the vacuum cleaner and securely connected. Check if the battery is fully charged.

What is a Bissell Crosswave cordless?

The Bissell Crosswave Cordless is the next model up. As the name suggests, it's a cordless model that comes with your standard features, including 3-in-1 docking tray, two-tank system and a 'tangle-free' multi-surface brush roll for hair up to 20cm long.

How long does a Bissell Crosswave battery last?

With a battery voltage of 36V, it provides a runtime of approximately 30 minutes, making it suitable for light to medium cleaning tasks. Equipped with a turbo brush, the Bissell CrossWave Cordless Max effectively removes dirt and debris from various surfaces, ensuring thorough cleaning.

Will this battery work in a Bissell cross wave cordless Max?

Answer: Unfortunately, the battery for your Bissell Cross Wave Cordless Max 2554A has been discontinued. The part you need is 1620634. To ask a question, please Log in or enter your email address.

Does the Bissell Crosswave have a charging station?

The Bissell Crosswave Cordless and Max models feature a 3-in-1 charging station that can clean, store and charge your vacuum at the same time. The dock station is equipped with a clean out tray and rinse funnel which will flush out your machine after a cleaning task, a charging station and a storage tray for the machine and brush roll.

How much does a Bissell Crosswave cost?

In terms of price, the Bissell Crosswave (starting from \$529 RRP\*) is on par with other upright vacuum models of the same calibre, including the Dyson Light Ball Multi Floor+ Vacuum (\$599 RRP\*) and Shark Navigator Pet Self Cleaning Brush Roll Vacuum (\$449 RRP\*).
