

Brightbox solar battery vs tesla powerwall

What is the difference between Tesla Powerwall & Sunrun BrightBox?

The Tesla Powerwall and Sunrun's Brightbox offerings are similar in multiple ways. Both batteries have lithium-ion chemistry and come with a 10-year manufacturer warranty. Neither Tesla nor Sunrun are the exclusive installers of the batteries they offer. The companies differ on the purchase options and installation for their batteries.

What is the difference between Tesla Powerwall and LG Chem BrightBox?

The Tesla Powerwall has a 13.5 kWh storage capacity for a full day of home backup, while the LG Chem BrightBox from Sunrun offers a 9.8 kWh capacity lasting for 8-12 hours. To learn more about solar batteries, check out our dedicated battery category.

Does Tesla sell a Powerwall?

Tesla is selling the Powerwall independently from its solar panel systems and offers it as an add-on to any interested homeowner (whether they have an old solar panel system, are looking to install a new one, or have no solar panels). By comparison, SunRun only offers the Brightbox package if you want to purchase solar from them.

Can I buy a Tesla Powerwall battery?

Major investment: Previously, you could purchase Tesla Powerwall batteries individually. Now, you have to purchase them as an add-on to a major Tesla solar installation, either solar panels or a solar roof. You may be able to buy a Powerwall from a certified Tesla installer, but wait times can be multiple years.

How do I choose a Tesla Powerwall?

When it comes to selecting and installing a Tesla Powerwall or any other solar battery, you need a trusted expert. Clean Solar provides tailored solutions to ensure you get the best performance from your solar storage system.
