

Can 3dr solo battery be rebuilt

How much battery does a 3DR solo have?

The 5200-mAh battery of 3DR Solo offers up to about 20 minutes of flight time on a single charge. With a wonderful maximum payload capacity of about 0.4 kg., and a transmission range of up to 805 meters, the 3DR Solo is a fantastic scouting tool too. Here's how the 3DR Solo drone performs when it comes to its different features:

How to get telemetry from 3DR solo?

3DR Solo uses smart BMS in each Solo battery which will give battery telemetry to Solo and ground station. There are different ways to get this information. a) Don't have telemetry: Solder the battery connectors directly to the Solo board. You need then to use a LiPo alarm and/or timer. It works but it is not what we want.

What happened to 3DR solo?

The company went belly up in 2015. The 3DR solo app is discontinued and the 3DR servers no longer exist (so there's no way to get past the "preflight update required" screen). All of your batteries will need to be replaced, since there are no 3DR batteries for sale, you need to have a rebuilt battery made for you (soloflies.com will help you out).

How do I recalibrate the Solo Smart Battery?

To recalibrate the Solo Smart Battery, follow these steps: Gently discharge the battery pack until it cuts off for the first time, which is around 12V. Allow the pack to relax for at least 5 hours. The pack's voltage will climb above 12V during this process.

Is there a way to replace a cell on a 3DR?

There is a guy who will perform the cell replacement for a fee. The stock 3DR app isn't available on app stores so you'll need to install ardupilot and use an app like Q ground control. It can still be flown, but it is more like an antique car than useful drone at this point.

How to fly a 3DR SOLO drone?

In order to fly your drone you need to install "Open Solo 4" on your drone, this is open source drone software created for the 3DR solo drone and it features many fixes and upgrades for your drone. If you are using an Android Tablet or Phone, then you need to download "Solex",.

3DR Solo - Smart Battery Calibration -- Copter documentation I haven't had to use it, but it's supposed to help calibrate the battery as long as there isn't a bad cell. Solex has ...

3DR BT11A Rechargeable Lithium Smart Battery For use with Solo Quadcopter Drone, 14.8V LiPo Flight Battery, 5200 mAh Capacity, LED Charge Indicators With a 5200 mAh capacity, the Smart Battery for Solo ...

Can 3dr solo battery be rebuilt

So I'm searching the forum, and I'm really interested to know if it's possible to rebuild a Solo battery. In my contact with 3DR tech support, I've learned that the expected ...

The BMSOne is proving to be a good solution for me. Always had calibration issues with the Solo BMS fitted to different batteries and it was always a clunky (technical term) ...

The 3DR Solo is the first smart drone released by 3D Robotics in April 2015. The 3DR is built for use with an action camera to produce landscape Aerial shots.

All of your batteries will need to be replaced, since there are no 3DR batteries for sale, you need to have a rebuilt battery made for you (soloflies will help you out).

3DR BT11A Rechargeable Lithium Smart Battery For use with Solo Quadcopter Drone, 14.8V LiPo Flight Battery, 5200 mAh Capacity, LED Charge Indicators With a 5200 ...

I took apart a 3DR Solo Battery and looked inside. It would only flying about 5 minutes and it would be at 15% I wanted to see if you could possibly rebuild one of these ...

These parts accommodate the Tattu 5200mAh 14.8V 35C 4S1P Lipo Battery used in the 3DR Solo Battery Mod for Dummies tutorial that can be accessed on the JB.s 3DR Solo Owners ...

I did the lipo upgrade to my solo. I can plug and works fine but solo doesn't see the lipo or something because it doesn't reset. Battery level just down to below the min to fly. ...

About this item Rechargeable lithium ion battery for 3DR Solo controller For 3DR Solo, 6 hours of battery life The Battery Include 30-Day Money Back and 18-Month Manufacturer Warranty.
