

Casio watch solar battery replacement

How do I replace the battery on my Casio solar watch?

Slide the new battery (available at any electronics store or online) into the compartment and place the metal bar over it. Replace the battery cover and reassemble your Casio solar watch in the reverse order you took it apart.

What is the replacement battery for Casio watches?

Panasonic CTL1616 /CTL1616F Battery is the original replacement battery for Casio watches. It is a rechargeable battery that fits many Casio models such as G-Shock, Edifice, Lineage, Pathfinder, Pro Trek, Tough Solar, Wave Ceptor. This battery works for the following Casio models:

Do Casio solar watches require a battery?

Casio solar watches are powered by light, so they generally don't require a battery. However, the battery may need to be replaced if the watch is not exposed to enough light or if the battery is damaged. If your Casio solar watch needs a new battery, take it to an authorized Casio service center.

What is the price of a Casio solar watch?

The Casio solar watch is priced to move, with a cost of a little more than \$50 in Australia and often as low as USD\$30 in America. Despite its affordable price, it's every bit as tough as its resin case suggests.

How long does a Casio watch battery last?

The average battery life for a Casio watch is about three years. A Casio watch battery lasts for approximately three years on average. However, some models may last longer or shorter depending on how much they are used and what type of battery they have. The best way to prolong the life of your Casio watch battery is to avoid exposing it to extreme temperatures and keep it away from strong magnets.

What does a Casio watch battery look like?

The battery looks like a small metal button. Most Casio watches have one battery, but some models, such as those in the PRO Trek range, have more than one. To remove the battery, carefully pop open the clasp across the cell or loosen the small screw that is holding the latch.
