

Cheap nimh solar batteries

Where can I buy a Ni-MH rechargeable solar battery?

Not available for purchase online. Please visit a Menards store for information and to purchase. These Performax(TM) Rechargeable Solar Ni-Mh AA batteries feature a 1.2-volt Ni-Mh rechargeable option and are designed for use with solar lights. They are the perfect solution for all of your battery needs.

What is the difference between NiCAD and NiMH batteries?

Unlike NiCd batteries, they do not suffer from the memory effect, allowing for more flexible charging cycles. NiMH batteries have a shorter cycle life compared to NiCad batteries but are still suitable for most outdoor solar lighting applications. They also perform well in a wide range of temperatures.

Are solar garden light batteries UL certified?

Generate more long-term savings when replacing regular solar garden light batteries. Tenergy's solar NiMH batteries are made environmental friendly materials, free of toxic heavy metals that comes with NiCd rechargeable batteries. Battery is UL Certified.

How long can a solar light battery last?

Tenergy Solla NIMH AA battery can power your solar lights up to 5 years, no more changing your solar light battery every 1-2 years. Generate more long-term savings when replacing regular solar garden light batteries.

Which battery is best for solar lights?

But the main drawback is the memory effect which reduces their capacity over time. NiMH (Nickel Metal Hydride): Most batteries used for solar lights are NiMH because they can hold more charge and last longer than NiCAD. They also don't suffer from memory effect issues, have a higher energy density, and are more environmentally friendly.

Should I buy a battery for my solar lights?

Before buying a battery for your solar lights, it's important to check the voltage and amperage they need. For instance, if your light needs 3.7V and 2A, your battery should match these requirements. If the battery's voltage is too high, it could harm your lights. If it's too low, the lights won't get enough power to function properly.
