Just because that battery CAN go to 64v, doesn't mean you HAVE to charge it to 64v. This is what snobler was saying. Even with the 3.2v cells, many people aren't charging ...

I went to a salvage yard today to pick up a Lithium battery from a Chevy Volt car. This is the Gen 2 battery, 18Kwh. I'm going to take this apart to make 48V battery banks for my...

Cabin Forum/Blog: Hello all... I keep seeing Lithium Ion battery s out of Electric Vehicles. Has anyone tried or had any success using these for off grid? thanks

I was wondering about using my old Volt battery pack as storage for electricity produced from my old solar array. I also have the inverter from my old solar system.

Repurposed EV Battery Use: Whether you want to do off grid solar, Golf cart conversions, EV build, electric conversion car, ATV, Motorcycle, Bicycle, RV solar, and anything else that needs a 48V battery these Chevy ...

Aged Chevrolet Volts batteries with an adjacent solar array and two wind turbines helping to supply power GM's data center in Milford, MI

I have been considering a DIY off grid solar electric system for my house to the point that I even designed and tested (on a small scale) a solar tracking system to get the most out of the system.

One man is taking a second-generation Chevrolet Volt battery and working to integrate it with his home's solar panels for off-the-grid energy.
