

Citizen watches solar battery

Eco-Drive converts any kind of light into energy to power a watch, storing the surplus on a power cell. On a full charge, an Eco-Drive watch runs for months even in darkness with no need for regular battery replacement.

When that occurs, it would be less expensive to replace the battery instead of buying a new watch. This guide demonstrates how to properly perform a battery replacement on a Citizen Eco-Drive watch.

Enter the 1980s and CITIZEN light-powered watches progressed by leaps and bounds thanks to the appearance of thinner solar cells better suited to generating power from indoor lighting and ...
