Where can I find commercial solar installers in California?

If you're searching for commercial solar installers in California, contact Sunistics. Get a proposal within a few days by calling us at 323-393-0375 or emailing customer@sunisticsgroup.com. Sunistics is located at 2272 Colorado Boulevard, Los Angeles, CA, 90041, United States.

Who makes commercial solar panels?

We partner with leading commercial solar panel brands like Canadian Solar, SolarEdge, Socomec Group, Enel X, and Solar Insure to make sure the solar products we install are of the highest quality. This guarantees the reliability and longevity of your commercial solar system.

How can a California business benefit from a solar system?

Ensure continuous operation during outages, reduce peak charges, and take advantage of net metering with a battery system. California businesses may qualify for tax credits that cover up to 50% of the total cost of their solar system.

Why should you choose California Solar?

California Solar delivers the highest value on solar and/or battery projects. California Solar is your full service solar & battery solution for commercial and residential properties throughout California. California Solar delivers the highest internal rate of return to maximize your return on investment.

Is investing in commercial solar a good decision?

Commercial solar is a good investment for businesses, typically offering a return on investment (ROI) in about three years due to major tax credits and significant savings on electricity bills. Currently, these savings can be as much as 80%. However, with changes coming to California, these numbers might not be around for much longer. Get a quote for Energy Storage.
