

# Cost of installing batteries for solar panels

How much does it cost to install a solar battery system?

Most whole-home solar battery systems require a professional installation--especially if you need to rewire your home or directly work with your electrical wiring in any way. Hiring a local solar contractor to install your solar battery system costs anywhere from \$2,000 to \$3,500 on top of the cost of the solar battery system itself.

How much does solar battery storage cost?

If you're looking to buy battery storage for your solar panels, you can probably expect to pay between \$7,000 and \$18,000. Just know that the overall price range for a solar battery is even wider, with prices anywhere from a few hundred dollars to \$30,000+, depending on what you buy, who you buy it from and how you plan to use it.

How much does it cost to install a solar battery in 2025?

The average cost to install a solar battery in 2025 is between \$9,000 and \$19,000, with the average homeowner paying around \$13,000 on average.

How much does it cost to install a battery?

On average, it costs around \$1,300 per kWh to install a battery before incentives. With the 30% federal tax credit applied, the cost is closer to \$1,000 per kWh. Update: This tax is only available to home battery storage systems installed by December 31, 2025. Here's what that looks like for common battery system sizes:

Should I install a solar battery system?

However, installing a solar battery system is best left to the pros. Most whole-home solar battery systems require a professional installation--especially if you need to rewire your home or directly work with your electrical wiring in any way.

How much does solar battery maintenance cost?

The cost to hire a local solar company to inspect and maintain your battery system is anywhere between \$150 and \$300 on average. Solar batteries last longer when you maintain them regularly. Maintenance includes an inspection, rotating the batteries, and cleaning the terminals.

Most homeowners spend an average of \$10,000 on solar battery costs, though prices typically range between \$6,000 and \$12,000. The total cost includes the battery system itself and the labor to install it.

On average, the cost of installing a battery storage system is around \$9,000 after federal tax credits. However, the final price will vary based on the brand of battery and your location.
