

Deka solar battery warranty

Who owns Deka batteries?

Kurt H. Smith is the founder and owner of Deka batteries. How long do Deka car batteries last? Generally, Deka car batteries will last for 12-30 months. Within this time, the battery should provide a smooth and continuous performance.

Are Deka batteries reliable?

Deka batteries are highly reliable in terms of performance. These batteries can be a great power source for automobiles or regular remote use. Moreover, the possibility of faults or malfunctions is negligible. As per the users, one Deka battery can serve for years. But you must maintain it properly.

Why should you choose Deka solar batteries?

Deka Solar batteries are engineered and tested to provide reliable back-up power for Photovoltaic (PV) and renewable energy applications. Our steadfast commitment to quality and environmental standards has helped us achieve globally recognized certifications.
