How much did gses1 pay a dividend in 2024?

This dividend totalling £5,050,995 was paid to investors on the 18 October 2024. The size of the revolving credit facility, within which the Company acts as chargor and guarantor to amounts borrowed by its subsidiary GSES1 Limited, has been increased in November 2024 from £50 million to £100 million.

When will a dividend be paid out in 2024?

The Directors have evaluated the need for disclosures and/or adjustments resulting from post balance sheet events through to 11 December 2024, the date the financial statements were available to be issued. On 10 September 2024, the Board approved a dividend of 1 pence per share for the period from 1 April 2024 to 30 June 2024.

What does Germany's energy policy entail?

Germany's policy also supports the investment case for energy storage, backed by incentives aimed at integrating renewable sources and enhancing grid stability. The proposed capacity market mechanism would provide an additional long-term revenue stream for the Company.

When will a dividend be paid?

The dividend will be paid on or around 15 January 2025. Any such dividend payment to Shareholders may take the form of either dividend income or "qualifying interest income", which may be designated as an interest distribution for UK tax purposes and, therefore, subject to the interest streaming regime applicable to investment trusts.

How much should a 4P dividend be?

Both should be near term catalysts. It's supposed to be 1p per quarter, with 4p as a final dividend. However, that final dividend depends on how the company has performed during the year, so it's far less certain. Assuming we do indeed see a 4p dividend this summer, it would be 7p / 60p for your dividend yield.
