Why should I choose Exide tubular solar batteries?

Exide's Tubular Solar Batteries are many steps ahead of other available options in the market. The reasons that make this product a superior choice are:

What are Exide tubular batteries made of?

The spines in Exide tubular batteries are cast from low antimony lead alloy,with selenium,copper,tin,and arsenic,to protect the lead support from anodic corrosion. A scanning electron microscope (SEM) study reveals the differences between machines that use gravity or low-pressure casting and those that are 'HADI' casting.

Which is the best solar tubular battery manufacturer in India?

Exide Industries is among the top solar tubular battery manufacturers in India offering Tubular Flooded Solar batteries and Tubular Gel Solar Batteries. The combination of low antimony alloy in the positive spine and ceramic vent plugs keep the water topping up requirement very low.

How do Exide tubular batteries work?

With the help of Tall Tubular technology,Exide tubular batteries use the high pressure 'HADI' casting process at 100 bar,while most other manufacturers use the gravity of low pressure casting processes.
