

# Fenix 6x pro solar battery life

How long does the Garmin Fenix 6x pro solar battery last?

The battery life compared to many smartwatches is very long on the Garmin Fenix 6X Pro Solar, coming in at 21 days on standby if you don't use the onboard music player or fire up the GPS.

Does the Garmin Fenix 6 pro solar work?

Battery life is a key area Garmin wearables always deliver on. But the Fenix 6 Pro Solar takes things to the next level, even by Garmin's standards. This is because it uses a nifty solar charging solution to back up the inbuilt battery when it's being used outdoors. How effective the tech is depends on where you're using it.

What's new in the Fenix 6 & 6 pro solar watch?

The bigger change relates to its glass. Unlike the regular Fenix 6 and 6 Pro, the Solar uses custom "Power Glass" to coat the screen. This is the main selling point for the watch. The glass aims to help improve battery life when the watch is used outdoors.

Does the Garmin Fenix 6 have solar charging?

This is because it uses a nifty solar charging solution to back up the inbuilt battery when it's being used outdoors. How effective the tech is depends on where you're using it. Specifically Garmin quotes the watch as offering 16 days regular use with Solar on. That's a two day improvement on the regular Fenix 6's life.

How long does a Garmin Fenix 6 last?

According to Garmin, you get about 21 days of watch mode and 60 hours of activity tracking without any solar or battery saving tweaks. One of the great things on the Fenix 6 is that it gives you a battery time estimate (5 days here). You can also just show the percentage.

Is the Fenix 6 pro solar a good fitness tracker?

The Fenix 6 Pro Solar is the latest top end fitness tracker from Garmin. It's a modest upgrade on the Fenix 6 Pro that wowed us last year, and that's no bad thing. Though the refinements made are modest at a glance, they add up to make the already great Fenix 6 line even better.
