

Garmin fenix 6x pro solar battery life

How long does the Garmin Fenix 6x pro solar battery last?

The battery life compared to many smartwatches is very long on the Garmin Fenix 6X Pro Solar, coming in at 21 days on standby if you don't use the onboard music player or fire up the GPS.

How long does a Garmin Fenix 6 last?

According to Garmin, you get about 21 days of watch mode and 60 hours of activity tracking without any solar or battery saving tweaks. One of the great things on the Fenix 6 is that it gives you a battery time estimate (5 days here). You can also just show the percentage.

What is the Garmin Fenix 6x Pro Solar?

The Garmin Fenix 6x Pro Solar is a GPS sports watch with advanced features. It is often compared to a Swiss Army Knife due to its numerous functions, which have evolved with technology.

Which Garmin Fenix should I buy?

If you go on extended hikes or outdoors trips and battery life is important, go with the Fenix 6x Pro Solar. If you don't get solar, get the Sapphire glass Fenix 6 that best fits your wrist. July 2020 Update: Garmin introduced solar for some non-6x models as well.

Is the Garmin Fenix 6x Pro A good watch?

Overall, the Garmin Fenix 6X Pro and the entire 6 lineup for that matter are of course just as solid as you'd expect them to be. The 6X Pro is a beefy watch with a lot of technology, a lot of battery, and it won't be for everyone given its size.

How many data fields does the Garmin Fenix 6x solar display?

The Garmin Fenix 6x Solar displays up to 6 data fields on-screen during a given activity. You're able to pick these from the menu. Examples include pace and cadence, lap times, and heart rate. Verdict The Fenix 6x Pro Solar isn't unique, but it's certainly refined.

Much better battery life and more power-saving modes (more later in the battery section). The Pro Solar adds some battery charging capabilities and is nice if you're trying to get the most out of the watch.

Now that I have charged up my new Fenix 6x Pro Solar for over the last couple weeks, got it the day of release, the battery life is getting better.

It charges with sunlight, so you can extend the battery life any time you're exposed to UV rays. Any Garmin smartwatch or sports watch model with a Bluetooth ...
