

# Latest solar thermal energy storage tender announcement

Does Lakshadweep have a floating solar project?

Lakshadweep, the island union territory in India, is exploring floating solar options to meet its energy requirements. One of the leading Renewable Energy Implementing Agencies (REIAs), Solar Energy Corporation of India (SECI), intends to develop a floating solar project on the island.

Can solar-thermal power be used in industrial processes?

Learn more about the use of solar-thermal power in industrial processes . This funding opportunity announcement (FOA) supports the goals of three DOE Energy Earthshots: Industrial Heat Shot, Long Duration Storage Shot, and Clean Fuels & Products Shot, which aim to rapidly advance solutions to achieve our decarbonization goals.

What is the goal of a solar energy storage system?

The goal is to enable cost-effective production of hydrogen, ammonia, liquid fuels such as gasoline, diesel, jet fuel, and solid fuels. This topic area will support technology development for thermal energy storage systems which can be driven by concentrated solar thermal energy input.

What is a concentrating solar thermal (CST) project?

The projects may be for electricity production (CSP) or other specified Concentrating Solar Thermal (CST) applications such as industrial process heat, chemical production, or fuel production. SETO will host an informational webinar on October 16 at 1 p.m. ET to discuss the funding opportunity and the areas of focus. Register for the webinar.

5 &#0183; Comprehensive news and insights on policy changes, regulatory frameworks, and government-led procurement shaping the clean energy and ...

The German government has opened a public consultation on new frameworks to procure energy resources, including long-duration energy ...
