

Lg solar battery recall

What is the LG Chem Resu 10h battery recall?

This recall involves the LG Chem Model RESU 10H lithium-ion storage battery that is installed as part of a residential energy solar panel system. The recalled battery allows owners to capture and store energy from the solar panels. The batteries are wall mounted and measure 29.30 x 35.70 x 8.10 inches. They weigh roughly 220 pounds.

Are LG batteries recalled?

Additional advice from the ACCC dated 22 November 2023: The Assistant Treasurer has issued a Safety Warning Notice that contains information about the risks involved with the LG batteries affected by this recall and advises consumers to immediately shut down affected LG batteries until remedied.

Are LG solar ESS batteries affected by a recall?

Certain LG large lithium-ion batteries are affected by the recall--particularly LG solar ESS batteries manufactured from January 2016 onwards. Around 6,400 batteries are yet to be diagnosed or replaced. These batteries are installed in homes mainly to capture and store renewable energy from solar panels.

Are recalled LG solar lithium-ion batteries a fire risk?

Following a recommendation by the ACCC, the Assistant Treasurer, the Hon. Stephen Jones, has today issued a national safety warning notice to warn consumers of fire risks associated with recalled LG solar lithium-ion batteries which are installed in solar energy systems across the country.

What happens if a solar energy battery is recalled?

Homeowners should immediately switch off their solar system battery if it is under the LG solar energy battery recall. These solar ESS batteries can overheat and catch fire without warning, which could lead to serious injuries, property damage or even death. We want consumers to be aware of the recall and the risks.

How do I know if my LG solar battery is recalled?

Do I own a faulty LG solar battery? To find out if your battery is affected by the recall, go to the LG website and select "Learn more", or you can go straight to the electrical safety recall notice. Select "Serial Number Check" and enter the serial number of your battery to see if it has been recalled.
