

The document underlined the importance of supporting upstream and downstream enterprises in the new-type energy storage manufacturing sector to optimize their ...

Renewable energy production is growing rapidly globally thanks to technological advancement. However, intermittency of solar and wind power output has ...

ETN news is the leading magazine which covers latest energy storage news, renewable energy news, latest hydrogen news and much more. This magazine is published by ...

2 · New plan calls for expansion of energy-storage applications, including more projects in desert areas and at retired coal-fired power plant sites.

3 · The proliferation of energy storage in everything from utility-scale batteries to electric vehicles is a driving force in the transition to a cleaner, more distributed power system.

We explore cutting-edge new battery technologies that hold the potential to reshape energy systems, drive sustainability, and support the ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two ...

Renewable energy production is growing rapidly globally thanks to technological advancement. However, intermittency of solar and wind power output has given rise to big demands for ...

The most important energy storage, battery, and electric vehicle news, events, and technology product update are exclusively from ETN News.

5 · China plans to more than double its battery storage capacity by 2027 with a new \$35.1 billion investment to support its growing solar and wind power ...

Energy Storage System (ESS) suppliers -- from battery manufacturers to smart panel providers -- tell Solar Builder magazine what's new in 2025.

China's new energy storage capacity exceeded 100 GW by June 2025, with total installations reaching 164.3 GW, surpassing pumped hydro additions amid accelerating ...

Energy Storage System (ESS) suppliers -- from battery manufacturers to smart panel providers -- tell Solar

Builder magazine what's ...

6 · The largest private energy company in Ukraine DTEK has commissioned 200 MW of energy storage facilities built in partnership with US-based Fluence, a global leader in energy ...

Find a wealth of information on the energy storage and battery industries with BEST Magazine. From all the latest news to in-depth technical articles, we ...

6 · Announced by the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA), the new plan is expected to drive CNY 250 billion ...

As of June 2025, the China Energy Storage Alliance (CNESA) reports that China has amassed approximately 164 GW of total installed energy storage capacity. This ...

GoodWe has officially unveiled its new ESA Series Residential All-in-One Solution, the latest generation of its popular household energy storage system. Building on the success of the first ...

China aims to nearly double battery storage by 2027 in \$35 billion plan China is looking to almost double its so-called new energy storage ...

2 · Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

Recognizing the diverse scenarios and needs in power systems, China is encouraging technological innovation in new energy storage, achieving breakthroughs across ...

A new study demonstrates that polymer coatings can both passivate the reactive lithium metal and selectively modulate interfacial electrolyte species, enabling stable cycling of ...

These innovations boost grid stability, efficiency, and sustainability. As renewable energy adoption accelerates, the future of ES is diverse, scalable, and intelligent. Explore more ...

Technology could boost renewable energy storage Columbia Engineers develop new powerful battery "fuel" -- an electrolyte that not only lasts longer but is also cheaper to ...

Aug 27, 2025 Bulgaria Opens Consultation on New 1.9 GWh Energy Storage Subsidy Aug 27, 2025 National Energy Administration: China's New Energy Storage Scale Now Ranks First in ...

Actively Exploring Energy Storage Application Scenarios In the era when the industry is fully shifting toward marketization, the reform of the ...

Find a wealth of information on the energy storage and battery industries with BEST Magazine. From all the latest news to in-depth technical articles, we have everything you need in print and ...

China is looking to almost double its so-called new energy storage capacity to 180 gigawatts (GW) by 2027, according to an industry plan ...
