

Returning energy storage batteries

Return partners with BESSMART to grow energy storage in Eastern Germany Return, a leading independent European energy storage provider, announces its partnership ...

Alfen has partnered with Return (formerly SemperPower) to launch its largest Battery Energy Storage System (BESS) project yet--Project Antares. Located in ...

Return extends Alfen partnership with third major battery energy storage system installation in four years. New Alfen 100MW/200MWh system ...

Energy investment and construction platform Return and renewable energy project developer Benbros have announced the creation of ...

The average age of power plants is 44 years, and the entire network needs a rethink. In the interim, batteries are returning power to Puerto Rico in innovative ways. An ...

Return aims to help Europe achieve its net-zero goals and reduce geopolitical dependencies by preserving every renewable electron to power a sustainable and resilient future.

Discover Innotinum, a leading battery energy storage system manufacturer, offering cutting-edge all-in-one energy storage systems. Our advanced battery energy storage ...

Grootschalige energieopslag! SemperPower is marktleider in het ontwikkelen, contracteren, financieren, bouwen en exploiteren van energieopslag systemen.

We are the largest party in the Netherlands offering independent energy storage, we say with pride. With each new storage location, we accelerate the energy transition together with our ...

Finally, some good news from an unlikely area, for an industry beleaguered with cascading issues. The California Fire Code (CFC) has been updated to clarify ...

Dutch energy storage firm Return plans to build a 1.4 gigawatt battery storage facility in the port of Vlissingen by 2027, it said on Tuesday, using 372 of Tesla's Megapack 2 ...

A fracturing of exchange prices reaffirms the need for Energy Storage Systems In May'25, power exchanges observed an unprecedented market bifurcation: spot prices for electricity during ...

European energy storage firm Return has unveiled the purchase of four ready-to-build and permitted battery

Returning energy storage batteries

energy storage system (BESS) projects in eastern Germany with ...

Tesla's grid-scale Megapack batteries have been selected for yet another battery energy storage system (BESS) in Europe, which is set to ...

To accelerate the expansion of large-scale battery storage, Lion Storage joined forces with Return last year. With a pipeline of 7 GW in ...

Battery participation in power markets, without long-term contracts, has often been viewed as a low-return business riddled with uncertain revenue streams. But India's ...

Energy storage provider Return has broken ground on a 100-MW/200-MWh battery energy storage project in the western part of the Netherlands, the cost of which is ...

On the 29th of November 2023, SemperPower (now part of Return) announced the successful activation of Castor, the largest Battery Energy Storage System (BESS) in the ...

Return, a leading independent European energy storage provider, announces its partnership with Berlin-based BESSMART to acquire four strategic battery energy storage locations in Eastern ...

The battery system is expected to be operational by the end of 2026, contributing mostly to Alfen's 2026 revenues. The battery will help ease ...

Energy Traders Energy storage creates a new market opportunity. Return helps you expand your portfolio without investment, cost, or risk. We deliver and operate battery storage systems ...

Dutch energy storage firm Return plans to build a 1.4 gigawatt battery storage facility in the port of Vlissingen by 2027, it said on Tuesday, ...

The battery will be connected directly to the grid by Return. In the Netherlands, Vattenfall already operates its own batteries in the Haringvliet and Alexia energy parks. ...

A record-breaking collaboration for grid-scale storage BYD Energy Storage and SEC have finalised a deal to roll out 12.5GWh of new grid-scale battery storage, making it the ...

Energy storage provider Return has partnered with Berlin-based Bessmart to develop and connect four battery storage plants in Brandenburg, Saxony-Anhalt, and Saxony. ...

Return is a European energy storage company headquartered in Amsterdam, Netherlands, with additional offices in Arnhem, Hamburg, Munich, and Madrid. Founded in 2021, Return focuses ...

Returning energy storage batteries

Vattenfall and the international energy storage company Return have entered into an agreement under which Vattenfall will operate and optimize a large-scale battery park ...

Dutch energy storage firm Return has started construction on the 100 MW/200 MWh battery energy storage system in Waddinxveen, which will be the first project of the size ...

Dutch energy storage firm Return has started construction on the 100 MW/200 MWh battery energy storage system in Waddinxveen, which ...

At Return, we are committed to revolutionizing energy storage to accelerate the transition to clean energy. Our mission is to own and provide large-scale energy storage systems that deliver ...

Vattenfall and the international energy storage company Return have entered into an agreement under which Vattenfall will operate and ...

Dutch energy storage provider SemperPower has rebranded and will now operate under the name of its parent company, Return. The move is aimed at strengthening Return's ...

Optimize your energy independence with our guide to home battery storage, uncovering innovative trends you can't afford to miss.
