

Rocky mountain power solar battery incentive

What is the Rocky Mountain Power wattsmart battery program?

With the new Rocky Mountain Power Wattsmart Battery Program, we are connecting with customers who want to take the journey with us to a more sustainable energy grid. HOW DOES IT WORK? This program uses renewable energy stored in customer-owned battery systems.

Does Rocky Mountain Power offer battery storage?

Rocky Mountain Power is paying customers to share battery storage and help maintain a more stable grid with fewer outages. By participating, customers earn an upfront incentive and ongoing bill credits, while using renewable energy to help keep electricity prices in Utah, Idaho, and Wyoming among the nation's lowest. Am I eligible?

Does the Tesla Powerwall battery qualify for an upfront incentive?

Learn more The Tesla Powerwall battery qualifies for an upfront incentive through Rocky Mountain Power's Wattsmart battery program. Image courtesy of Tesla, Inc.

Will Utah's Rocky Mountain power raise electric rates?

With Utah's Rocky Mountain Power potentially raising electric rates, a battery can also help customers save a little extra money on their bills. But remember, RMP can deplete your battery down to 10%- 20% charge whenever they want, meaning the company might not leave you enough power to actually hold you over during an outage.

Are SolarEdge batteries eligible for wattsmart?

Sonnen and SolarEdge brand batteries are currently the only batteries eligible for the program. The program terms and conditions are vague and subject to change at any time, so participants must be comfortable with the possibility of earning less money than they initially thought. What is Rocky Mountain Power's Wattsmart battery program?

Who is a good fit for Rocky Mountain Power?

Rocky Mountain Power says the best people fit for the program are "customers who are early adopters of technology, energy conscious and want to make a positive impact on the environment with renewable energy". If these are things you're passionate about, this is a great way to be a part of a new program.

If you don't already have a battery, you can qualify for an upfront battery enrollment incentive of \$150 per kW for each year that you commit to participate in the program.
