

Scooter plus outdoor energy storage

Can electric scooters be stored outside?

An electric scooter user should know the rule of not storing their electric scooter outside if they have used an e-scooter for a long time. Keeping an electric scooter outside exposes it to rain, dust, and snow. Moisture is harmful to your electric scooter and its battery. Hence, you shouldn't keep an electric scooter in a humid or damped place.

How do I take care of my electric scooter storage needs?

Taking care of your electric scooter storage needs doesn't have to be complicated. Just remember to keep it indoors, maintain some battery charge, and place it somewhere that's both convenient for you and safe for your scooter. A little effort now means your scooter will be ready to ride when you are!

How to store an electric scooter for the winter?

If you are storing your electric scooter for the Winter, the essential thing you should take care of is the scooter's battery. It is the most important part to keep your electric scooter working for a long time and to maintain the battery life to exhaust as slowly as possible.

How do you store an e-scooter?

Avoid outdoor storage whenever possible. If you must store your scooter outside, use a waterproof cover and find a sheltered spot. Never leave your e-scooter exposed to rain or snow for long periods. The ideal temperature for scooter storage is between 50-85°F (10-30°C). Keep your scooter away from heaters, radiators, and direct sunlight.

What temperature should a electric scooter be stored in?

Room temperature (around 68-77°F) is best for electric scooter storage. This keeps the battery and electronics in good condition. Avoid very cold places like unheated garages in winter. Cold temperatures below 32°F can damage your battery. Don't store your scooter in hot places either.

Should you keep an electric scooter in a humid place?

Moisture is harmful to your electric scooter and its battery. Hence, you shouldn't keep an electric scooter in a humid or damped place. Keep your scooter away from cluttered spaces to prevent it from getting damaged. Plus, you might not have space to access the scooter between so many things.
