

# Seiko solar battery replacement

How much does it cost to replace a Seiko watch battery?

To replace a battery in a Seiko watch, it usually costs about \$25. The cost depends on the brand name, manufacturer, and watch type. However, if you can replace the battery yourself, there will be no extra cost for the battery replacement task except the cost of the battery itself.

How to replace the battery on a Seiko solar watch?

To replace the battery on a Seiko solar watch, first remove the back cover using a special tool or watch clamp. Then, remove the existing battery using tweezers and insert the new rechargeable battery.

What type of battery does a Seiko solar watch use?

Seiko solar watches typically use a rechargeable lithium-ion battery.

How do I replace a Seiko battery?

We recommend that you contact an Authorized Seiko Service Center or a Seiko appointed dealer and request to have batteries replaced with genuine Seiko batteries. Please kindly note that the battery at the time of purchase is pre-installed at the factory and it is for monitoring function and performance.

Does Seiko offer a free battery replacement service?

This service is available for Seiko watches for men and Seiko watches for women. We offer a 1-year free battery replacement on all Seiko watches. Seiko watches are perfect when you want to treat yourself to a nice gift. These timepieces also make a wonderful gift.

How do you open a Seiko Watch?

Most Seiko watches generally have a back case with multiple indentations. You'll want to use an adjustable watch case opener to safely open your watch. Adjust the size of the watch opener to fit around the back shell of the watch. Line up the nobs with the indentations of the case, and twist the cover off.
