

# Seiko solar chronograph v172 battery replacement

What should I do if my Seiko Watch is not a solar watch?

Before continuing, make sure your watch is not a solar watch. If it is, we recommend delegating to the experts for Seiko solar watch battery replacement. This rechargeable battery is actually a special cell called a capacitor, which should be replaced by a trained watchmaker.

What kind of battery do I need for a Seiko Watch?

We recommend using a quality brand such as Duracell or Renata for replacement batteries for Seiko watches. At our repair center, we stock all Seiko battery sizes - as well as dozens of other sizes.

### 3. How to Replace the Watch Battery in a Seiko

How do you replace a Seiko watch battery?

How to Replace the Watch Battery in a Seiko Inside certain Seiko watch models, there is a clip over the battery that holds the cell in place. The clip may be screwed or pinned over the top. If there is a clip, carefully remove or loosen it. Once the battery is accessible, insert your tool of choice into the opening.

What if I Can't get my Seiko watch repaired?

If you cannot have your watch repaired by the retailer from whom the watch was purchased because you received the watch as a gift, or you moved to a distant place, please contact SEIKO CUSTOMER SERVICE CENTER. The service may also be available on a chargeable basis at other retailers, however, some retailers may not undertake the service.

When should you stop wearing a Seiko Watch?

Immediately stop wearing the watch in following cases: ?If the watch body or band becomes edged by corrosion etc. ?If the pins protrude from the band. \*Immediately consult the retailer from whom the watch was purchased or SEIKO CUSTOMER SERVICE CENTER. Keep the watch and accessories out of the reach of babies and children.

How do you open a Seiko Watch?

Most Seiko watches generally have a back case with multiple indentations. You'll want to use an adjustable watch case opener to safely open your watch. Adjust the size of the watch opener to fit around the back shell of the watch. Line up the nobs with the indentations of the case, and twist the cover off.
