

Shuangliang energy-saving energy storage refrigeration equipment

How does shuangliang save energy?

Through its equipment, Shuangliang saves a great deal of energy and reduces emission of carbon dioxide and sulphur dioxide. Its direct air-cooled condenser also helps in saving million tons of plain water.

Who makes shuangliang air conditioning equipment?

Formerly known as Jiangsu Shuangliang Air Conditioning Equipment Co. Ltd, Shuangliang Eco-Energy Systems Co. Ltd is a Chinese company that manufactures and sells chemical and mechanical products. Through its equipment, Shuangliang saves a great deal of energy and reduces emission of carbon dioxide and sulphur dioxide.

Who is shuangliang?

Since 1982, the more than 40 years history of endeavor and constant improvements has transformed Shuangliang from an air conditioning equipment manufacture to a conglomerate maintaining operations in machinery, clean energy, chemical, new materials, and hotel management.

What makes shuangliang a good company?

FM technology and quality management system. Quality of Shuangliang products are guaranteed by several hundreds of imported equipments, such as plasma cutting machines, horizontal and vertical machine centers, numerical controlled drilling and mill centers, welding robots and helium leak detect

Why should you choose shuangliang?

Adhering to the unique idea of quality, service and innovation, Shuangliang maintains a competitive edge in the Absorption Chiller market. Its brand stands for high class features such as energy saving, environment-friendliness, latest monitoring systems, and hassle-free installation and maintenance.

Is shuangliang a China well-known Mark?

Meanwhile, Shuangliang has been recognized as a China Well-known Mark, with the 2,000-mu Shuangliang Industrial Park and 700-mu Shuangliang Machine Building Park, and operates 22 subsidiary companies.

In 2021, Shuangliang Energy Saving entered the silicon wafer industry. Shuangliang Baotou Company was established in February of that year. As an investment ...

The contract includes multiple pairs of rod reduction furnaces and tail gas jacketed tube devices, 20MW electrolyzer system and lithium bromide refrigeration units. ...

SHUANGLIANG GROUP Nearly 40 years, Shuangliang has developed into an integrated industry with three major systems of energy saving, water saving and environmental protection, ...

Shuangliang energy-saving energy storage refrigeration equipment

Shuangliang energy saving announced that the company and Qinghai Lihao semiconductor materials Co., Ltd. signed the "sales contract of reduction furnace" on July 6, ...

Wu Gang joined Jiangsu Shuangliang Group in 1998 and served successively as the general manager of Shuangliang Parking Equipment Co., Ltd. and the general manager ...

Gelonghui, January 2 | Shuangliang Energy Saving (600481.SH) announced that it recently received the "Notice of Winning Bid" from China Energy Group International Engineering ...

With the mission of energy-saving, emission reduction, and environment-friendly, Shuangliang has devoted in exploration and innovation since its founding in 1982. Nearly 40 years, it has ...

Last year, while maintaining growth in our traditional energy-saving business, Shuangliang also made good progress in the photovoltaic industry chain and green hydrogen ...

In 2023 alone, California's grid operators reported wasting enough solar energy to power 750,000 homes - all because we couldn't store it properly. That's where Shuangliang Energy Saving ...

Established in 1982 and through more than 30 years of dedication and innovation, Shuangliang Group Co., Ltd. is specialized in energy-saving and environmentally-friendly equipment ...

About Shuangliang Eco-Energy Systems Shuangliang Eco-Energy Systems focuses on the energy-saving and environmental protection sector, focusing on system integration for energy ...

Large-scale liquid-cooled energy storage enables grid peak regulation. With over 40 years of energy-saving experience, SLG utilizes green power equipment like electric refrigeration and ...

Shuangliang Hydrogen | 625 ?Unleashing the Era of Hydrogen | As the core enterprise of SLG (Shuangliang Group), SLG (Shuangliang Eco-Energy Systems Co., Ltd.) has ...

[Shuangliang Energy Saving net profit increased 107.40% to 136.50% net profit of a series of new energy equipment orders in 2021] Shuangliang Energy Saving system Co., Ltd. expects to ...

Shuangliang and ENERGY DOME will strengthen business cooperation in energy storage and establish a cooperative ecosystem within the industrial chain, ...

Shuangliang Energy Saving is a leading Chinese company specializing in energy-saving and environmental protection solutions. Established in 1982 and headquartered in Jiangyin, ...

Shuangliang energy-saving energy storage refrigeration equipment

SHUANGLIANG ECO-ENERGY SYSTEMS CO., LTD. Shuangliang established in 1982, has over 40 years of experience in innovation and a strong focus on energy-saving, water-saving, ...

Shuangliang Eco-Energy Systems Co., Ltd. product brand: shuangliang Numéro de stand:W2F09 product specification: product category: Air Conditioning-Central air ...

Our commercial refrigeration solutions provide enterprises with EU - standard compliant energy - efficient cold storage equipment with advanced energy - saving technologies, comprehensive ...

Since foundation in 1982, in 28 years Shuangliang Eco-Energy Systems Co., Ltd have been devoting in supplying solutions and products of energy saving and environmental protection ...

Shuangliang Group unveils the world's largest alkaline electrolyzer, promising advancements in clean hydrogen production with an ...

Through its equipment, Shuangliang saves a great deal of energy and reduces emission of carbon dioxide and sulphur dioxide. Its direct air-cooled condenser ...

GelonhuiMarch 22Shuangliang Energy Saving (600481.SH) announced that on March 21, 2023, the company's holding subsidiary Jiangsu Shuangliang New Energy Equipment Co., Ltd. ...

The energy efficiency of processes operating at sub-ambient conditions strongly depend on the refrigeration methods which are implemented to facilitate these low ...

Main Activities: Chemical Manufacturing | Boiler, Tank, and Shipping Container Manufacturing | Ventilation, Heating, Air-Conditioning, and Commercial Refrigeration ...

Last year, while maintaining growth in our traditional energy-saving business, Shuangliang also made good progress in the photovoltaic ...

Internal combustion engine flue gas and jacket water can be used directly to operate flue gas/hot water type absorption chiller to simplify equipment configuration, reduce equipment investment ...

Since its founding in 1982, Shuangliang 's core business has revolved around "energy conservation and water conservation." Products such as bromide chillers, air coolers, and ...

Shuangliang Eco-Energy Systems Co.,Ltd Mission Statement Shuangliang Eco-Energy Systems Co., Ltd focuses on providing innovative energy efficiency ...

Financial Associated Press, November 8 - Shuangliang energy conservation announced that the total contract

Shuangliang energy-saving energy storage refrigeration equipment

amount of the single crystal furnace sales contract signed ...
