

# Solar battery backup temecula ca

Who should I choose for solar in Temecula?

Here are the top companies we recommend for solar in Temecula: With Sunrun, you get a new, modern energy experience - the freedom to power life how and when you want with reliable, affordable energy made from the sun. Hardllyn , Dylan, and Casey were all great to work with. After several months, the system is not working.

How much does solar cost in Temecula?

The average price of solar is about \$2.14 to \$3.22 per watt in Temecula, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

What solar incentives are available in Temecula?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some cities, counties, states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in Temecula:
