Solar Panel Devon have 20 years' experience in the renewable industry in Devon. Solar PV, electricity storage solution and ev charging.

Could a large solar farm be built in Devon?

Plans for a large solar farm with 91,000 solar panels across 17 different fields have been recommended for approval in Devon. The site would span 61 hectares and be surrounded by a four-mile long fence. If approved, it would be bigger than any solar farm built in Devon so far.

What can you do with a solar battery?

Turn sunlight into savings with a battery - power your home with solar and monitor it all from your phone. Plus, earn cash selling surplus energy back to the grid. Call us now to find out more. Transform your garage into a personal fueling station and wake up every day to a fully charged electric vehicle.

How many solar panels & 5kW battery storage have you saved?

With 11 solar panels installed and 5KW battery storage we have saved almost £1000 in the first 12 months. We used Sun Energy to install 120 kw of solar onto our property roof at Brixham Trawler Agents. The work they had to do was get the correct planning, liaise with the local council and then design the best possible solution for us.
