

Solar battery storage installers in exeter

What are the benefits of solar energy installation & battery storage?

The positive impact of solar energy installation and battery storage, is extensive and includes reduced greenhouse gas emissions, lower carbon footprints, decreased reliance on fossil fuels, and less strain on the grid.

How many solar panels & 5kW battery storage have you saved?

With 11 solar panels installed and 5KW battery storage we have saved almost £1000 in the first 12 months. We used Sun Energy to install 120 kw of solar onto our property roof at Brixham Trawler Agents. The work they had to do was get the correct planning ,liaise with the local council and then design the best possible solution for us.

What can you do with a solar battery?

Turn sunlight into savings with a battery - power your home with solar and monitor it all from your phone. Plus, earn cash selling surplus energy back to the grid. Call us now to find out more. Transform your garage into a personal fueling station and wake up every day to a fully charged electric vehicle.

If you want to sell your spare energy back to the grid you will need a battery to store it. Our team of solar storage battery installers in Exeter can get the job done fast!
