

Solar breeze replacement lithium battery rt 19563

What is a solar Breeze NX2 pool cleaner?

The Solar-Breeze NX2 is the 2018 model of our pool cleaner. Take your time back and let a robot keep your pool sparkling clean! Operating on free solar energy, the Solar-Breeze NX2 works almost around the clock to skim dirt and debris from the surface of your pool before it has a chance to sink and decay.

How does the solar Breeze NX2 work?

Operating on free solar energy, the Solar-Breeze NX2 works almost around the clock to skim dirt and debris from the surface of your pool before it has a chance to sink and decay. The water passes through a fine mesh filter to remove bugs and dust and leave your pool sparkling clean.

What is the solar Breeze NX robot?

The solar breeze nx robot is a cool tool for keeping the surface of a pool clean! It might be fun to tweak/customize it a bit more so let's see what's inside... If anyone knows what to plug into the 6 pin off-white connector at the bottom of the board and what software/protocol to use with it please share.

How long can the solar Breeze NX2 keep cleaning?

The Solar Breeze NX2 can keep cleaning hours after sundown - the maximum running time per day mid-summer in sunbelt is approx. 23.5 hours! The mesh net collection area is twice that of your in-wall skimmer basket so the Solar Breeze NX2 can collect more debris with less effort.

What is a lithium ion solar battery?

Engineered with cutting-edge technology, these batteries provide a reliable and efficient energy storage solution for your solar power system. With their high energy density and excellent charge retention, lithium ion solar batteries ensure you make the most of your solar-generated power, even during periods of low sunlight.

The weather is getting warmer, and for some lucky people, this means that it is officially time to open up the pool! Last summer, our never-ending quest to showcase the ...
