

# Solid state battery market share

What is the solid-state battery market?

A notable trend in the Solid-State Battery Market is the miniaturization of electronic devices and their integration into various applications. The compact size and form factor of solid-state batteries make them ideal for powering smaller electronic devices, wearables, and IoT sensors.

Which region has the largest solid-state battery market in 2025?

Asia Pacific is estimated to account for the largest share of the solid-state battery market in 2025 due to the presence of many key consumer electronics, wearable device, and EV manufacturers.

Who owns the solid state battery industry in 2024?

The top 2 players of the solid state battery industry are LG Energy Solution and Samsung as they own around 17% market share in 2024. Similarly, in 2024, LG Energy Solution along with Kumho Petrochemical filed a patent for the advanced solid electrolyte technology.

Which region has the largest battery market share in 2024?

Asia Pacific dominated the solid-state battery market with the largest market share of 53.97% in 2024. Europe is expected to grow with the highest CAGR during the forecast period. By type, the thin-film battery segment has held the largest market share of 37% in 2024.

Which countries will hold the largest share of the global solid-state battery market?

Asia Pacific is expected to hold the largest share of the global solid-state battery market during the forecast period. The Asia Pacific market includes China, Japan, India, South Korea, and the Rest of Asia Pacific.

What is solid-state battery market in 2023?

These batteries, characterized by their solid-state composition, offer a compelling blend of power and stability, contributing to their significant market presence. In 2023, the Solid-State Battery Market witnessed a substantial market share dominance by the 20mAh-500mAh capacity segment, capturing over 68.4%.

Global Solid-state Battery Market Share is expected to grow at a CAGR of around 32.00% during 2025-30. (Top Leader - Blue Solutions, Brightvolt, Prieto Battery, and Ganfeng Lithium Group ...

This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the solid state battery market analysis from 2020 to 2030 to identify the prevailing solid state battery market opportunities.

Solid State Battery Market Size, Share, Trends, By Application (Consumer Electronics, Electric Vehicles, Energy Harvesting, Medical Devices, Packaging, and Wireless Sensors), By Battery ...

# Solid state battery market share

As these sectors continue to evolve, the Solid State Battery Market revenue is expected to reflect the growing integration of this technology, with market growth driven by advancements in ...

The solid state car battery market size was valued at USD 259.8 million in 2023 and is expected to grow at a CAGR of 54.0% from 2024 to 2030.

Asia Pacific is estimated to account for the largest share of the solid-state battery market in 2025 due to the presence of many key consumer electronics, wearable device, and EV manufacturers.

In 2023, the Solid-State Battery Market witnessed a substantial market share dominance by the 20mAh-500mAh capacity segment, capturing over 68.4%. This notable presence signifies a preference for a specific range of capacities within ...

The global solid state battery market was estimated at USD 617.7 million in 2021 and it is expected to surpass around USD 7.51 billion by 2030, poised to grow at a CAGR of 31.99% ...

Asia Pacific dominated the solid-state battery market with the largest market share of 53.97% in 2024. Europe is expected to grow with the highest CAGR during the ...

Global Solid State Battery market is predicted to reach approximately USD 7.35 billion by 2032, at a CAGR of 21.86% from 2024 to 2032.

The top 2 players of the solid state battery industry are LG Energy Solution and Samsung as they own around 17% market share in 2024. Similarly, in 2024, LG Energy Solution along with ...

By 2035, the Solid State Battery Market is estimated to expand to USD 31.47 Billion, showcasing a robust CAGR of 34.08% between 2025 and 2035, starting from a valuation of USD 1.25 ...

Solid State Battery Market size is estimated to be valued at USD 1,971.8 Mn in 2025 and is expected to expand at CAGR of 39.2% reaching USD 19,968.1 Mn by 2032.

As these sectors continue to evolve, the Solid State Battery Market revenue is expected to reflect the growing integration of this technology, with market growth driven by advancements in battery chemistry and manufacturing processes.

Solid state battery market is expected to reach a size and share of USD 24.9 Billion by 2034, growing at a compound annual growth rate (CAGR) of 34.4%.

In 2023, the Solid-State Battery Market witnessed a substantial market share dominance by the 20mAh-500mAh capacity segment, capturing over 68.4%. This notable presence signifies a ...

# Solid state battery market share

Global Solid State Battery market size is expected to reach \$4.5 billion by 2029 at 41.6%, segmented as by type, single-cell battery, multi-cell battery

By battery type, the thin film battery segment dominated the global solid-state battery industry and accounted for the largest revenue share of 89.8% in 2024. By capacity, the 20mAh-500mAh ...

Solid-State Battery Market Size, Share & Industry Analysis, By Type (Single Layer and Multi-Layer), By Application (Consumer Electronics, Electric Vehicles, Medical ...

By battery type, the thin film battery segment dominated the global solid-state battery industry and accounted for the largest revenue share of 89.8% in 2024. By capacity, the 20mAh-500mAh capacity segment led the market and held the ...

This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the solid state battery market analysis from 2020 to 2030 to identify the ...

Solid State Battery Market Size, Share, Trends, By Application (Consumer Electronics, Electric Vehicles, Energy Harvesting, Medical Devices, Packaging, and Wireless Sensors), By Battery Type, By Capacity and By Region Forecast ...

Solid State Battery Market to Reach USD 27 Billion With CAGR of 24.61% by 2035, Solid State Battery Industry Analysis by Application, Technology, Form Factor, End Use, Size, Share, Growth, Trends and Region | Solid State Battery ...

The global solid-state battery market size was worth USD 84.33 million in 2023 to reach a valuation of USD 2,017.53 million by 2032 with a CAGR of 42.3%

The dynamics of the solid-state battery market are influenced by growing demand for safer, more efficient, and high-capacity energy storage solutions. The EV industry, ...

Solid State Battery Market Size and Forecast (2025 - 2035), Global and Regional Growth, Trend, Share and Industry Analysis Report Coverage: By Product Type (Thin-Film, Portable), By Capacity (Below 20 mAh, ...

Solid state battery market to hit \$3.4B by 2030, with an 18.0% CAGR from 2021-2030. Demand rises from energy storage, wearables, and consumer electronics.

Rising disposable income, especially in urban areas, and the growing prevalence of owning highly advanced electric vehicles are major factors contributing to the ...

The solid state battery market size reached USD 1,810 Million in 2024 to reach USD 22,707 Million by 2033 at a CAGR of 32.45% during 2025-2033.
