

Vat rate for energy storage services

Can I get VAT relief for energy storage devices?

In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries. The relief applies to the services of installing energy-saving materials in residential accommodation and charitable buildings.

Do energy suppliers have to pay VAT?

Energy suppliers are required to account for VAT under the normal rules as the payment is made for a taxable supply of energy. Any VAT incurred by suppliers in relation to the operation of the scheme relates to the taxable supply of energy and is therefore recoverable, subject to normal rules.

When will the VAT zero rate apply to energy-saving materials?

The Government first announced the extension of the VAT zero rate to key energy-saving materials in its Spring 2023 Budget. Following an extensive consultation, the Government confirmed that from 1 February 2024 the zero rate of VAT will now apply.

Are fuel and power supplies subject to VAT?

Unless otherwise specified, legal references will be from the VAT Act 1994 (VATA 1994). Under the act, supplies of fuel and power are subject to the standard rate of VAT unless they are eligible for the reduced rate under schedule 7A or being exported outside the UK under the conditions set out in VAT on goods exported from the UK (VAT Notice 703).

Is electricity subject to VAT?

Electricity supplied for a qualifying use (read section 3) is subject to the reduced rate. Supplies of not more than an average rate of 33 kilowatt hours per day, 1,000 kilowatt hours per month, of electricity to one customer at any one of the customer's premises are subject to VAT at the reduced rate.

What is a vat supply?

For VAT purposes, the supply of heat, power, refrigeration or ventilation is a supply of goods (VATA 1994 schedule 4 paragraph 3). As such, the rules surrounding time and place of supply are those associated with goods rather than for services. The reduced rate of VAT applies to supplies of fuel and power for qualifying use.
