

Where are oman energy storage companies located

What is the main energy source in Oman?

Unlike the national energy production, gas accounts for the largest amount of primary energy supply in Oman (18,040 ktoe), followed by crude oil (9,927 ktoe). Oman is a fossil fuel exporting country. In 2011, the country was exporting 39,481 ktoe of crude oil, 2,152 ktoe of oil products and 9,797 ktoe of natural gas.

Why should you invest in Oman Oil & Gas?

Presents a unique combination of offshore and floating storage with direct access to Oman's main oil fields and refinery. Potential for pipeline connection to other Gulf exporters. Promotes high-quality services to institutional clients and traders from around the world, particularly the Gulf region, East Africa and Asia.

Why is Oman a good place to invest?

Oman promotes foreign investments, allowing international companies to benefit from a low tax regime and a well-funded banking system, pushing forward private sector aspirations and revenue growth. RasMarkaz is part of SEZAD - a free zone - and so exempt from all corporate, customs and other taxes.
