

# Who will pay for the energy storage rental fee

How much does energy storage cost?

Electricity Energy Storage Technology Options: A White Paper Primer on Applications, Costs and Benefits. EPRI-1020676, Final Report, December 2010, Electric Power Research Institute, Palo Alto, California. RedT Energy Storage. 2018. "Gen 2 machine pricing starting at \$490/kWh."

Why should you lease a site for a battery energy storage system?

Land is the most important resource for the development of battery energy storage systems. Several factors must be considered when considering the leasing of a site for a BESS project, some of the most important being: The size of the land required for a BESS project depends on the capacity of the battery system.

Why are solar & battery storage lease rates increasing?

The increasing demand for landsuitable for solar and battery storage projects has driven up lease rates in recent years,especially because of the incentives offered by the IRA Renewable Energy. As the industry expands,competition for land is intensifying,particularly in regions with favorable solar and wind resources.

How do utilities encourage energy storage?

Utilities often offer incentives to encourage the adoption of energy storage systems to improve grid reliability and balance supply and demand. These incentives may include demand response programs,time-of-use rate structures,or capacity market participation.

What is the average lease rate for solar projects?

Recent research by Purdue University revealed that the average lease rate for solar projects has exceeded \$1,000 per acrein many regions. With the growing interest in BESS projects,it's reasonable to expect similar trends in land lease rates for battery storage facilities.

What is the Investment Tax Credit (ITC) for energy storage?

The Investment Tax Credit (ITC),previously applicable to solar projects,has been expanded to include energy storage systems. The base ITC for energy storage is 6%of the project's qualifying costs. However,this can be increased to 30% if the project meets prevailing wage and apprenticeship requirements (PWA).
