

You can start a portable energy storage company

Is a self-storage facility a business?

Remember, a self-storage facility is more than a structure. It's a business. To get into the storage business, you'll almost assuredly need to carve out millions of dollars to purchase or construct a facility, and to cover various operating expenses, particularly payroll and taxes.

Why do small businesses need self-storage units?

Many small businesses rely on self-storage units instead of warehouse storage to keep business equipment, inventory and supplies. Some customers even have converted self-storage units into high-end "man caves" and "she sheds." Overall the storage needs of the public provide a steady source of demand for the industry.

What should be included in a business plan for a self-storage facility?

Each business plan should be tailored to your own needs, but a business plan for a self-storage facility usually will feature information such as: Mission statement. Vision statement. Ownership structure. Business structure (such as an LLC, or limited liability corporation). Staff roles and responsibilities.

What can you store in a self-storage unit?

They could be stashing furniture, art, appliances, TVs, documents, holiday decorations, wine, vehicles, boats or RVs. Many small businesses rely on self-storage units instead of warehouse storage to keep business equipment, inventory and supplies. Some customers even have converted self-storage units into high-end "man caves" and "she sheds."

Should you invest in a self-storage facility?

When it comes to buying a self-storage facility, one investment number that's essential to note is the capitalization rate (cap rate for short). "Capitalization rates are always the overarching consideration for both buyers and sellers in the self-storage industry," according to self-storage brokerage firm SkyView Advisors.

How much does it cost to build a storage facility?

Keep in mind that these are rough estimates. As a rule of thumb, you can expect to spend anywhere from \$50 to \$65 per square foot to construct a single story facility or \$85 to \$110 to build a multi-story facility, according to storage builder MakoRabco. However, that's merely an approximate range.
